

## **Bermuda Sailors' Home Seafarers' Centre Dockyard Project**

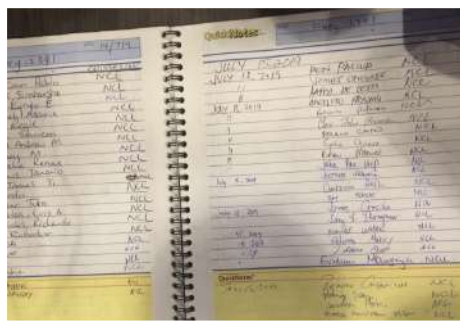

# **SPONSORSHIP OPPORTUNITIES 2021**

**Maritime Lane, Bermuda**

The Bermuda Sailors' Home ("BSH") is a registered charity, whose purpose is "to provide recreation centres and homes for and the promotion of the happiness and wellbeing of all seafarers".

## **“The new seafarers’ centre in dockyard will allow us to serve the thousands of seafarers on cruise ships each week.”**

Bermuda Sailors’ Home has been a welcoming environment for foreign seafarers and the local population for many years. BSH reviewed its capacity to serve seafarers and noted that the current facility was too far from Dockyard to serve cruise ship crews. After long weeks serving on board, crews are happy to get away from the ship for a few hours and, especially, to find a good Internet connection. Free WiFi in the Dockyard area was too slow (especially when many tried to connect at the same time). Other Internet options ended up being very costly. As caring for seafarers is the heart of our mission, BSH is therefore very excited to open a second location directly in the Dockyard area, just steps away from the cruise ships that arrive each day to serve these crews. This location gives crews a friendly, quiet place to sit and use free WiFi and our other services.

Seafarers will rely on us to provide this service. In turn, we rely on our local and international partners to help support our running costs. We would be pleased if you might consider sponsoring our work in the next year.
